Finding Your Member

Simpra · Case Manager Reference

Search by member ID (primary method)

1. Type the member's ID into the search bar and press **Enter**.
2. Confirm you've opened the correct member before reviewing or creating a referral.

Advanced Search (fallback)

1. If the ID doesn't return a result, select **Advanced Search**.
2. Search by **First Name**, **Last Name**, and **Date of Birth**.
3. Confirm the member record before continuing — names and IDs shown in training are examples only.

Reading the member landing page

SECTION	WHAT IT SHOWS
Overview	Full name, address, date of birth, phone, preferred language
Recent Activity	Latest authorization and referral updates
Benefits	The member's Companion Care tile — select it to see authorizations and referrals

Inside the benefit tile

The Companion Care tile covers both the **Companion Care** and **Virtual Companion** services under one shared authorization. Plan Allowance is the member's annual number of visits (1 point = 1 visit), which varies by plan: 30 for ISNP and 25 for DSNP and IESNP. Check **Expires** — the benefit runs by plan year and visits do not roll over.

NORMAL, NOT BROKEN

A member with no referrals listed simply hasn't had one created yet. An empty list on its own isn't a problem.
