Finding Your Member

Ultimate · Case Manager Reference

Search by Member ID (primary method)

1. Type the member's ID into the search bar and press Enter. Ultimate member IDs start with **UL**, followed by seven digits.
2. Confirm you've opened the correct member before reviewing or creating a referral.
3. If the ID doesn't return a result, select **Advanced Search**.

Advanced Search (fallback)

1. Search by **First Name**, **Last Name**, and **Date of Birth**.
2. Select the matching row, and confirm the member record before continuing — test values shown in training are examples only.

Reading the member landing page

SECTION	WHAT IT SHOWS
Overview	Full name, address, date of birth, phone, preferred language
Recent Activity	Latest authorization, referral, and note updates
Benefits	The member's In-Home Support Services (Companionship) tile — select it to see the authorization and referrals

NORMAL, NOT BROKEN

A member with no referrals listed simply hasn't had one created yet. Case managers and The Helper Bees add referrals when a service is needed — an empty list on its own isn't a problem.

Inside the benefit tile

Ultimate members have one benefit: **In-Home Support Services (Companionship)**. Selecting the tile shows the authorization (effective and expiration dates, plan code) and every referral under it. The authorization line also shows the member's **Plan Allowance** (30 hours), **Used**, **Pending**, and **Remaining** hours, while each referral's Encounter Summary shows that referral's own hours.
