

Alignment Case Manager FAQ

Common questions from the field

Can I share the provider's phone number with a member?

Yes — once the referral reaches Accepted By Provider status. Before that point, the contact details may be visible in Benefits Hub, but they aren't ready to hand out yet.

How many cleanings does a member get?

It depends on their plan — annual limits range from 1 to 21 cleanings per plan year. The Plan Allowance on the benefit tile shows the member's number. Cleanings don't roll over: the benefit expires at the end of the plan year.

Can a member use both Light Housecleaning and Standard Housecleaning?

Yes. Members may use Light, Standard, or a mix of both within their annual limit. Add each service separately, and use the full allotment at checkout — 1 point equals 1 cleaning, and one-off referrals should be avoided.

Can a provider do two cleanings in one day?

No. Providers complete only one cleaning per day — visits can't be stacked.

What does the member pay?

Where a member's plan includes a copay, they pay \$50 directly to the provider for each cleaning. The provider collects payment information when scheduling and charges after the cleaning is completed.

The member says no provider has called. What now?

Provider outreach is expected within 3–5 business days after acceptance. If the member hasn't heard from a provider after 7–10 business days, they should call The Helper Bees at 888-404-6503. Confirm the member's phone number on their Overview is correct.

What number can members call for help with their benefit?

Members can call The Helper Bees at 888-404-6503, Monday-Friday, 8:00 a.m.–8:00 p.m. local time.

Why do I see View SDQ if there aren't any questions?

Alignment currently has no Service Detail Questions. The View SDQ option still appears in the menu, but there is nothing to fill out or review.

Why does Source show N/A on a referral?

That's expected for Alignment — nothing is wrong with the referral.

Can I create a one-off referral for a single cleaning?

Please don't. Members should use their full allotment at checkout — enter all of their annual cleanings in one referral. 1 point equals 1 cleaning.

Why don't I see an encounter on a brand-new referral?

Encounters only appear after the provider has actioned the referral. A referral with no encounters yet isn't necessarily a problem.

Do I need a separate escalation or grievance form?

No. Submit a request through Alignment's support form at alignment-thb.zendesk.com, choose the Issue Type that best fits, and include full details in Additional Comments.

What if a required ticket field doesn't apply?

Enter N/A rather than leaving it blank. An empty required field can stall the ticket.

I'm searching by ID and getting no results.

Double-check the ID you typed, then use Advanced Search with First Name, Last Name, and Date of Birth.
