Quick Tips to Check Before Submitting a Ticket

BCBS AR · Case Manager Reference

Most “something looks wrong” moments are expected behavior. Run through this table before you escalate anything.

SITUATION	WHAT TO CHECK
No referral present	Confirm the correct member ID and benefit tile. Not every member has a referral yet.
Only one service shows up	Normal — members may use Post-Discharge, Virtual Companion, or both.
Initial IHS Assessment shows Remaining 0.00	Expected once the assessment is completed — it's a separate one-point benefit and doesn't use the 20 post-discharge hours.
No assessment visit documentation shows	Optional — not every assessment has any, and nothing is wrong. Open the assessment encounter and read its Service Tasks to see what the provider recorded.
Member was discharged again but has no hours left	The 20 hours are one allotment per benefit year — another discharge in the same year doesn't create another allotment.
Care location differs from the member's address	On the Add Referral screen, use Change Service Address before you check out. If it's wrong on the summary, go back to the previous screen and change it.
Phone number is missing	Ask for and enter the member's best phone number in the required Service Question.
Quantity looks unclear	Confirm the hours allotted for the referral; review the combined total when both services are used.
No encounter is visible	Encounters appear only after the provider has actioned the referral.
Member says “Walmart benefit”	Recognize the reference, but use the approved formal program name.

Still need to submit a ticket?

1. Open the form from within Benefits Hub, or go directly to bcbsar-thb.zendesk.com/hc/en-us/requests/new.
2. Fill in every field marked with an asterisk. If a field doesn't apply, enter N/A — don't leave it blank.
3. Choose the Issue Type that fits (see below).
4. In Additional Comments, include the member's name, member ID, and referral details so support has what they need.

Choosing an Issue Type

BCBS AR routes everything through one form — there's no separate escalation or grievance form. If a ticket is urgent, also email your THB Account Coordinator with the ticket number so they can help move it along.

ISSUE TYPE	USE FOR
I need help logging in	Sign-in or account access trouble
I have a question about my order/service/referral	Referral status, service questions — the most common choice
Need a refund	Billing or refund requests
Account creation/deletion	Setting up or removing an account
Provider: change request/report a provider issue	Provider changes or conduct concerns
Report system issue/outage	Benefits Hub itself is down or broken
