Quick Tips to Check Before Submitting a Ticket

Alignment · Case Manager Reference

Most “something looks wrong” moments are expected behavior. Run through this table before you escalate anything.

SITUATION	WHAT TO CHECK
No referral present	Confirm the correct member ID and benefit tile. Not every member has a referral yet.
Only one service shows up	Normal — members may use Light Housecleaning, Standard Housecleaning, or both.
Care location differs from the member's address	Use **(change service address)** when you add the referral, before the cart. It can't be edited at checkout or after.
Quantity looks unclear	Confirm the member's annual limit (1 point = 1 cleaning) and review the combined total when both services are used.
Provider hasn't called yet	Providers reach out within 3–5 business days of accepting. Members should call THB after 7–10 business days.
No encounter is visible	Encounters appear only after the provider has actioned the referral.
Referral or authorization just changed	Allow at least 24 hours before treating it as a system issue.

Still need to submit a ticket?

1. Open the form from within Benefits Hub, or go directly to alignment-thb.zendesk.com/hc/en-us/requests/new.
2. Fill in every field marked with an asterisk. If a field doesn't apply, enter N/A — don't leave it blank.
3. Choose the Issue Type that fits the action needed.
4. In Additional Comments, include the member's name, member ID, and referral details so support has what they need.

Choosing an Issue Type

Alignment routes everything through one form — there's no separate escalation or grievance path. Match the action needed, not just the topic:

ISSUE TYPE	USE FOR
I need help logging in	Sign-in or account access trouble
I have a question about my order/service/referral	Referral status, service questions — the most common choice
Need a refund	Billing or refund requests
Account creation/deletion	Setting up or removing a Benefits Hub user
Provider: change request/report a provider issue	Provider changes or conduct concerns
Report system issue/outage	Benefits Hub itself is down or broken

If a ticket is urgent, email your THB Account Coordinator with the ticket number so they can help move it along faster.
