Understanding Benefits, Balances, Referrals, and Notes

Ultimate Health Plan · Case Manager Reference

Status

Select the Status field on a referral to see what it means. **Accepted By Provider** means the provider has confirmed — and that's your green light to share their contact info with the member.

STATUS	WHAT IT MEANS
New	Referral has been created and is awaiting approval.
Approved	The system recognizes the referral but it hasn't been assigned to a local provider yet.
Assigned to Provider	A provider was found in the service area and alerted (they have 3 days to respond).
Accepted By Provider	The provider has accepted — contact info can be shared with the member.
Unable to Contact	The provider couldn't reach the member after 3 attempts.
Member Declined Services	The member declined the provider that reached out.
Completed	All rate types have been invoiced and billed for the service.
Closed	The service was refunded and the referral is now inactive.

Provider

Select the provider's name for their contact card — company, contact name, email, phone, and location.

SHARING PROVIDER CONTACT INFO

The phone number is visible regardless of status — but only share it with the member once the referral reaches **Accepted By Provider**.

Referral narrative

Free-text space for context added to the referral — special instructions, or background for the provider. It's normal for this to come back empty; check it anyway.

Understanding Benefits, Balances, Referrals, and Notes (continued)

Balance & key dates

Above the encounter list, the **Encounter Summary** shows Allowed, Used, and Remaining hours for this specific referral (Ultimate Health Plan's annual benefit is 30 hours). Below that, **Key Dates** tracks the referral's history: received, accepted, assigned, and (if applicable) declined.

Encounters

An encounter is the provider's record of what actually happened — time in, time out, total hours, and the Service Tasks they completed (for Companion Care, tasks like Social Engagement and Light Housekeeping). Encounters only appear after a provider has completed a visit, so a brand-new referral may not show one yet.

Add a note

1. Select **Add**, then **Add Note**.
2. Choose a **Note Type** (Visit Scheduled, Member Outreach, Status Change, General, and more).
3. Type what happened, then select **Add Note** to save it.

NOTES DON'T ESCALATE ANYTHING

Adding a note does **not** alert The Helper Bees — it's just a record on the referral. If something needs attention, submit a support ticket instead.

Find notes, documents, and service questions

VIEW MENU OPTION	WHAT IT SHOWS
View Notes	Every note logged on the referral, in one table
View Documents	Any files a provider has attached (receipts, invoices)
View SDQ	Answers to any Service Detail Questions — Ultimate Health Plan's Companion Care doesn't use them, so this comes up empty
