Adding a Referral

Quick reference for creating a referral: Aetna case managers

How to create a referral for any Aetna benefit. The questions in step 5 depend on the benefit.

1 Find the member and open the benefit

- Search by member number. On the member page, select the **benefit tile** you need.
- Check the authorization: **Plan Allowance**, **Used**, **Pending**, and **Remaining** hours.

2 Select Add Referral

- Post-Discharge and Recovery at Home may ask **"Does this member need a new post-discharge referral?"** when hours left are fewer than one referral's worth. Answer **Yes, new discharge** only for a new discharge. Hours go back to the full amount.

3 Care somewhere other than home?

- Before you choose the service, check where care will take place. If it is somewhere other than the member's home, select **(change service address)** and enter that address. Services refresh for that location, and the address carries through to checkout.
- Only one alternative address is allowed per checkout, and the member's address on file does not change.

4 Choose the service

- Select **Search For Services** and pick the service.

5 Answer the service questions

- Required questions are marked with a red *. **Add to Cart** turns on when they are answered. See the table below.

6 Add a referral narrative (optional)

- Up to 250 characters. When the service has questions, Benefits Hub adds a first line telling providers to review them, and that line counts toward the 250.

7 Check the order details and add to cart

- Quantity is **1** and Total Points is the **full allotment**: every Aetna referral is one item that costs all of it, so there is nothing to type. Read the expiration note, then select **Add to Cart**.

8 Review and check out

- On the Referrals Summary, check the quantity and the **Service Address**. The address is read-only here. If this referral replaces an open Post-Discharge or Recovery at Home referral, the cart warns you.
- Select **Checkout**, then **Confirm**.

VERIFY THE SERVICE ADDRESS BEFORE YOU CHECK OUT

You can't edit the address on the checkout screen. If it is wrong, remove the item from the cart (trash icon), go back, and change it on the Add Referral screen with **(change service address)**. **An incorrect address can't be edited after checkout.** Any change after that takes a Zendesk ticket. Double-check it every time, before you confirm.

Service questions by benefit

Question	Recovery at Home	Post-Discharge	Personal Care	Companion Care
Best number to reach member	●	●	●	—
Point person 1: name, relationship, whether PHI can be shared	●	●	●	—
Point person 1: email, phones, best time. Point persons 2 and 3	○	○	○	—
Current hospital / facility	○	○	—	—
Anticipated discharge date (planning only)	○	○	—	—
Date care is needed	●	●	—	—
Qualifying diagnosis (one)	●	—	—	—
Qualifying chronic conditions (select all that apply)	—	●	—	—
Support needs (select at least one)	●	●	—	—
Support needs: ADLs (select at least two)	—	—	●	—
Support needs: IADLs and other support	—	—	○	—
Facility name	—	—	—	●
Facility contact (name and role or title)	—	—	—	●
Facility contact phone number and email	—	—	—	●
Preferred date(s) for the provider	—	—	—	●
Preferred time(s) or time window(s)	—	—	—	●
Facility scheduling rules or restrictions	—	—	—	●
SSBCI chronic condition(s) (select at least one)	—	—	—	●
Care interest confirmed with member?	○	○	○	○
Referral narrative (250 characters)	○	○	○	○

● required ○ optional — not asked for this benefit

SECOND REFERRALS

A second **Personal Care** referral in the same year, or a second **Companion Care** referral in the same quarter, is stopped at **Add to Cart**: the first used the full allotment. For **Recovery at Home**, a second referral for the same diagnosis in the same year is stopped at checkout.
