Quick Tips to Check Before Submitting a Ticket

BCBS SC · Case Manager Reference

Most “something looks wrong” moments are expected behavior. Run through this table before you escalate anything.

SITUATION	WHAT TO CHECK
No referral present	Confirm the correct member ID and benefit tile. Not every member has a referral yet.
Only one benefit tile	Normal — every BCBS SC member has a single Digital Wallet tile.
Remaining shows less than 1000.00	Remaining = Plan Allowance − Used − Pending. Pending points count against the balance before care is finalized.
A request is over a service limit	Caregiver Support, Digital Health Literacy, and Virtual Companionship are limited to 10 hours each. Home modifications: one lever faucet, one handheld shower, one raised toilet seat, up to 14 stair treads, up to 2 grab bars.
Care location differs from the member's address	Select (change service address) on the Add Referral screen before you choose a service. It can't be changed at checkout.
No encounter is visible	Encounters appear only after the provider has actioned the referral.
A just-created authorization isn't showing	Allow at least 24 hours before treating it as a system issue.

Still need to submit a ticket?

1. Open the form from within Benefits Hub, or go directly to bcbssc-thb.zendesk.com/hc/en-us/requests/new.
2. Fill in every field marked with an asterisk. If a field doesn't apply, enter N/A — don't leave it blank.
3. Choose the Issue Type that fits (see below).
4. In Additional comments, include the member's name, member ID, and referral details so support has what they need.

Choosing an Issue Type

BCBS SC routes everything through one form. Submit the ticket first; if it's urgent, also email your THB Account Coordinator with the ticket number. For Ticket Submitted By, choose Member, Case Manager, or Leadership.

ISSUE TYPE	USE FOR
I need help logging in	Sign-in or account access trouble
I have a question about my order/service/referral	Referral status, service questions — the most common choice
Need a refund	Billing or refund requests
Account creation/deletion	Setting up or removing a user account
Provider: change request/report a provider issue	Provider changes or conduct concerns
Report system issue/outage	Benefits Hub itself is down or broken
