Quick Tips to Check Before Submitting a Ticket

Network Health · Case Manager Reference

Most “something looks wrong” moments are expected behavior. Run through this table before you escalate anything.

SITUATION	WHAT TO CHECK
No referral present	Confirm the correct member ID and benefit tile. Not every member has a referral yet.
Only one benefit tile	Normal — each plan has one benefit: In-Home Support (Cares DSNP) or Non-Emergency Transportation (Select PPO and Go PPO).
Transportation tile shows 9999.00	That's how the benefit is configured. The plan controls the annual reimbursement ($400 Select PPO, $750 Go PPO); enter the rides the member needs.
Remaining shows 0.00	Remaining = Plan Allowance − Used − Pending. Pending points count against the balance before care is finalized.
Ride Add to Cart is greyed out	Fill in every required Service Question (marked *), including ride date, pick up and destination, time, and mobile number.
Care location differs from the member's address	On Add Referral, use change service address before you check out. If it's wrong on the summary, go back and change it.
Member's address or phone is out of date	Case managers update member demographics. THB can't update them.
No encounter is visible	Encounters appear only after the provider has actioned the referral.

Still need to submit a ticket?

1. Open the form from within Benefits Hub, or go directly to **networkhealth-thb.zendesk.com/hc/en-us/requests/new**.
2. Fill in every field marked with an asterisk. If a field doesn't apply, enter N/A — don't leave it blank.
3. Choose the Issue Type that fits (see below).
4. In Additional comments, include the member's name, member ID, and referral details so support has what they need.

Choosing an Issue Type

Network Health routes everything through one form — there's no separate escalation or grievance form. Submit the ticket first; if it's urgent, also email your THB Account Coordinator with the ticket number.

ISSUE TYPE	USE FOR
I need help logging in	Sign-in or account access trouble
I have a question about my order/service/referral	Referral status, service questions — the most common choice
Need a refund	Billing or refund requests
Account creation/deletion	Setting up or removing a user account
Provider: change request/report a provider issue	Provider changes or conduct concerns
Report system issue/outage	Benefits Hub itself is down or broken
