Quick Tips to Check Before Submitting a Ticket

Champion Health · Case Manager Reference

Most “something looks wrong” moments are expected behavior. Run through this table before you escalate anything.

SITUATION	WHAT TO CHECK
No referral present	Confirm the correct member ID and benefit tile. Not every member has a referral yet.
Only one benefit tile	Normal — every Champion Health member has a single Respite Care tile.
Remaining shows less than 48.00	Remaining = Plan Allowance − Used − Pending. Pending counts against the balance before care is finalized.
A request is over the limit	Respite Care is limited to 48 hours per year, with no rollover.
Care location differs from the member's address	Select (change service address) on the Add Referral screen before you choose a service. It can't be changed at checkout.
No encounter is visible	Encounters appear only after the provider has actioned the referral.
A just-created authorization isn't showing	Allow at least 24 hours before treating it as a system issue.

Still need to submit a ticket?

1. Open the form from within Benefits Hub, or go directly to champion-thb.zendesk.com/hc/en-us/requests/new.
2. Fill in every field marked with an asterisk. If a field doesn't apply, enter N/A — don't leave it blank.
3. Choose the Issue Type that fits (see below).
4. In Additional comments, include the member's name, member ID, and referral details so support has what they need.

Choosing an Issue Type

Champion Health routes everything through one form. Submit the ticket first; if it's urgent, also email your THB Account Coordinator with the ticket number. For Ticket Submitted By, choose Member, Case Manager, or Leadership.

ISSUE TYPE	USE FOR
I need help logging in	Sign-in or account access trouble
I have a question about my order/service/referral	Referral status, service questions — the most common choice
Need a refund	Billing or refund requests
Account creation/deletion	Setting up or removing a user account
Provider: change request/report a provider issue	Provider changes or conduct concerns
Report system issue/outage	Benefits Hub itself is down or broken
