

Finding Your Member

Quick reference for searching and reviewing a member

1 Search for your member

- Search by member number for the fastest results.
- No member number handy? Use Advanced Search instead — enter first name, last name, **and** date of birth. All three fields are required; case managers don't have the option to search by just one or two of them.

2 The member landing page

- The Overview panel holds the member's key details — check here first.
- Recent Activity, on the right, keeps you posted on what's changed on the account.
- Click into either panel for a closer look.

3 Benefit tiles & authorizations

- Benefit tiles show what the member is eligible for — for example, At Home Care, Respite Care, Assessments, or Home Modification (including Bathroom Safety, Air Quality, and Pest Control).
- Click between tiles to compare authorization details for each benefit.
