

Signing In to Benefits Hub

Quick reference for accessing your account — Aetna case managers

1 How access gets set up

Your account team will send you a personal sign-in link by email, along with a username and password. Bookmark the link — you'll use it every time you sign in.

2 Sign in to Benefits Hub

Go to the Benefits Hub sign-in page and enter the username and password from your account team's email.

<http://aetnabenefits.thehelperbees.com>

Note: Benefits Hub and HomeAlign are different systems but share the same login credentials.

3 Verify your identity

After you sign in, check your email for a 6-digit verification code and enter it to finish logging in. Codes expire 10 minutes after they're sent — if yours has expired, just go back to the sign-in page and enter your credentials again to get a new one.

4 Trouble signing in?

- **Forgot your password?** Look for the “Forgot password?” link right on the sign-in page — it'll walk you through resetting it.
- **Can't sign in at all, or your account isn't showing up?** Reach out to your account manager for help getting signed in.

Key takeaway

Aetna case managers sign in with a personal link and a 6-digit email verification code — no SSO involved. A forgotten password is self-service right on the sign-in page; anything else, loop in your account manager.
