Adding a Referral

Network Health · Case Manager Reference

BEFORE YOU START

Each service type is its own referral. Create it from the member's benefit tile: **In-Home Support** for homemaker help, or **Non-Emergency Transportation** for rides.

In-Home Support: Homemaking

1. From the member's **In-Home Support** page, select **Add Referral**.
2. Choose Service Category **In Home Support**, then search for and select **Homemaking**.
3. Confirm the service is Active. Homemaking has no Service Questions.
4. Leave the Quantity at **1** — Homemaking is one 120-point service, the member's full 120-hour allotment.
5. Select **Add to Cart**.

Non-Emergency Transportation: rides

1. From the member's **Non-Emergency Transportation** page, select **Add Referral**.
2. Search for the ride that fits the member's needs: Private Pay Medical Sedan Ride, Private Pay Wheelchair Van Ride, or Private Pay Stretcher Van Ride (1 point each).
3. Answer the required Service Questions (marked *): ride date, pick up location, where the member will be standing, destination, pick up time, and the member's mobile number. Accompanying riders, preferred provider, and additional details are optional.
4. Set the Quantity and select **Add to Cart**.

ALLOW ONE BUSINESS DAY

Ride dates need one business day for booking, so pick a ride date at least one business day out.

CARE SOMEWHERE OTHER THAN THE MEMBER'S HOME ADDRESS?

Check the address first. On Add Referral, before you choose a service, select **change service address** next to “Available Services for…” and enter where care will happen. It applies to this referral only, the member's address on file doesn't change, and it can't be edited at checkout.

Worked examples

SERVICE	QUANTITY	POINTS EACH	TOTAL POINTS
Homemaking (In-Home Support)	1	120.00	120.00
Private Pay Medical Sedan Ride (Transportation)	1	1.00	1.00

Review and submit

1. On the Referrals Summary, review each service's quantity and total points — use + or − to adjust if needed.
2. Confirm the Service Address. If it isn't right, use the back arrow to return to Add Referral and select change service address. It can't be edited at checkout.
3. Select **Checkout**, then **Confirm**. Checkout submits everything in the cart.

VERIFY THE SERVICE ADDRESS BEFORE YOU CHECK OUT

The address can't be edited at checkout or after. Check it on Add Referral, and confirm it again on the summary.

AFTER SUBMITTING

The referral may not show an encounter right away — encounters only appear once the provider has actioned the referral. That's expected, not an error.
