Finding Your Member

Network Health · Case Manager Reference

Search by ID (primary method)

1. Type the member's 9-digit ID into the search bar and press **Enter**.
2. Use the care recipient's own ID when you have it.
3. Confirm you've opened the correct member before reviewing or creating a referral.

Advanced Search (fallback)

1. If the ID doesn't return a result, select **Advanced Search**.
2. Search by First Name, Last Name, and Date of Birth.
3. Confirm the member record before continuing — the member shown in training is an example only.

Reading the member landing page

SECTION	WHAT IT SHOWS
Overview	Full name, address, date of birth, phone, preferred language
Recent Activity	Latest authorization, referral, and note updates
Benefits	The member's benefit tile. Select a tile to see its authorizations and referrals

ONE BENEFIT PER PLAN

Each Network Health plan comes with one benefit, so a real member normally sees a single tile: **In-Home Support** (Cares DSNP) or **Non-Emergency Transportation** (Select PPO and Go PPO). The training account shows both so you can compare them.

Inside the benefit tiles

In-Home Support covers Homemaking: companionship, house help, technology support, physical activity, grocery shopping or drop-off, and other in-home support duties. The Cares DSNP benefit is 120 hours a year, entered as one 120-point Homemaking referral; the hours from each visit are then drawn from it.

Non-Emergency Transportation covers health-related trips by medical sedan, wheelchair van, or stretcher van. The annual reimbursement maximum depends on the plan: **$400 on Select PPO** or **$750 on Go PPO**.

NORMAL, NOT BROKEN

A member with no referrals listed simply hasn't had one created yet. An empty list on its own isn't a problem. Allowances don't roll over — they expire at the end of the year.

WHY 9999.00?

The Transportation tile shows 9999.00 because that is how the benefit is configured. The plan controls the annual reimbursement ($400 Select PPO, $750 Go PPO); enter the rides the member needs.
