Network Health Case Manager FAQ

Network Health · Common questions from the field

What benefits does Network Health offer in 2027, and who gets which?

Each plan code receives one benefit. **Cares DSNP** members receive In-Home Support (homemaker services, 120 hours a year). **Select PPO** members receive Non-Emergency Transportation with up to $400 in annual reimbursement, and **Go PPO** members receive up to $750.

Why does a member only have one benefit tile?

Because each plan receives one benefit. A member sees In-Home Support or Non-Emergency Transportation, not both. The training account shows both only so you can practice with each.

What happened to ESRD Transportation and the SSBCI benefits?

They were removed from the 2027 benefit scope. The Florence and Forest county plan code was removed too, leaving two eligible plan codes moving forward.

What does In-Home Support cover?

Homemaking: Companionship, House Help, Technology Education & Support, Physical Activity, Grocery Shopping/Drop, and Other in-home support duties. The annual benefit is 120 hours. Enter one Homemaking referral with the quantity left at 1; the hours from each visit count against the 120 (1 point = 1 hour), e.g. a 2.5-hour visit leaves 117.5.

What does Non-Emergency Transportation cover?

Health-related trips by medical sedan, wheelchair van, or stretcher van. Choose the ride type that fits the member's needs; each ride is 1 point, and the plan sets the annual reimbursement maximum.

How do I book a ride?

Add a referral from the Non-Emergency Transportation tile and answer the required Service Questions: ride date, pick up location, where the member will be standing, destination, pick up time, and the member's mobile number. Please allow one business day for booking.

Do unused benefits roll over?

No. Benefits expire at the end of the year, and unused allowances do not roll over.

A member's Remaining shows 0.00, but I thought they had some left. Why?

Remaining is Plan Allowance minus Used minus Pending. Pending counts against the balance even before it's finalized, so Remaining can reach zero before all care is delivered.

What if the member needs service at a different address than what's on file?

Use **change service address** on the Add Referral screen, before you choose a service. It applies to that referral only and the address on file doesn't change. It can't be edited at checkout, so if the Referrals Summary shows the wrong address, use the back arrow to return to Add Referral.

Can THB talk to the member about their benefit?

No. THB works with case managers only and can't discuss benefit details or referrals with members. The member's information is also updated by the case manager, not by THB.

Can I share the provider's phone number with the member?

Yes, once the referral reaches Accepted By Provider. The number is visible in Benefits Hub before that, but it isn't ready to share until the provider accepts.

Do I need a separate escalation or grievance form?

No. Network Health routes every issue through the one Submit a request form at networkhealth-thb.zendesk.com. Choose the Issue Type that fits and include full details in Additional comments. If it's urgent, also email your THB Account Coordinator with the ticket number.

What if a required ticket field doesn't apply?

Enter N/A rather than leaving it blank. Every field marked with an asterisk is required.

I'm searching by ID and getting no results. Now what?

Use Advanced Search with First Name, Last Name, and Date of Birth. Member IDs are 9 digits, so double check the number too.

How do I reach THB, and when?

Call 833-288-1098, 8:00 am to 5:00 pm CST. Submit a ticket for anything you'd like tracked in writing.
