Adding a Referral

Simpra · Case Manager Reference

BEFORE YOU START

Each member has an annual number of visits set by their plan — 30 for ISNP, 25 for DSNP and IESNP — and 1 point = 1 visit. Each visit is up to two hours, but enter the quantity as visits, not hours. The visits are shared between Companion Care and Virtual Companion. Request all the visits the member plans to use up front — it helps a provider accept sooner, and the member doesn't have to use them all at once.

Create the referral

1. From the member's benefit page, select Add Referral.
2. **Check the service address first.** If care will happen somewhere other than the member's address on file, select **(change service address)** now. This is the only place to change it — it can't be edited at checkout.
3. Search for and select the service: Companion Care or Virtual Companion, and confirm it is Active.
4. Answer every Service Question: preferred dates and times, plus facility details. Enter N/A for the facility name if the member doesn't live in a facility, and include the facility contact and phone number when one applies.
5. Enter the Quantity in visits and confirm it reflects the visits requested for this service, then select Add to Cart.

WHICH SERVICE?

Companion Care and Virtual Companion share the same visits but are different services with different fulfillment workflows — choose the one that fits what the member needs. If the member wants both, split the visits between the two services and add each to the cart.

Worked example

SERVICE	QUANTITY	POINTS EACH	TOTAL POINTS
Companion Care	15	1.00	15.00
Virtual Companion	10	1.00	10.00
Total (DSNP member, 25 visits)	**25**		**25.00**

If the member only wants one service, request all 25 visits for that service instead.

Review and submit

1. On the Referrals Summary screen, review each service, its quantity, and the total.
2. Confirm the Service Address. You can't edit it here — if it's wrong, use the back arrow to return to Add Referral and select (change service address).
3. Check that the visits across all services add up to what you meant to request.
4. Select Checkout, then Confirm.

VERIFY THE SERVICE ADDRESS BEFORE YOU CHECK OUT

An incorrect address can't be edited at checkout or after. Once you submit, fixing it takes a support ticket (not guaranteed) or a new referral. Double-check it every time.

GOOD TO KNOW

Referrals are entered by Simpra care managers and plan staff in Benefits Hub — The Helper Bees can walk through the workflow and review referral details but doesn't create new referrals. Authorizations are processed and referrals assigned within two business days of submission.
