Adding a Referral

Longevity · Case Manager Reference

Before you start

Longevity case managers and authorized plan users create Life Enrichment and Companion referrals in Benefits Hub. The Helper Bees can guide you through it, but doesn't create them for you. Create the referral from the member's Life Enrichment tile.

Add a service

1. From the member's Life Enrichment page, select Add Referral.
2. Check the service address first. If care will happen somewhere else, select (change service address) now.
3. Choose a Service Category if you like, then search for and select the service.
4. Confirm the service is Active and check its points.
5. Set the Quantity. Products are entered by the number you need. Companion Care is entered in hours.
6. Select Add to Cart.

COMPANION CARE IS HOURLY

Enter the number of hours as the quantity (43 points per hour). Companion Care draws from the same $500 quarterly wallet as Life Enrichment products, and a **new referral is needed each quarter**.

KNOW THE WALLET

Life Enrichment and Companion share **$500 per quarter** (up to $2,000 a year). Unused points expire at the end of the quarter and don't roll over. OTC is separate and ordered by phone.

Worked examples

SERVICE	QUANTITY	POINTS EACH	TOTAL POINTS
Women's Memory Foam House Shoes With Velcro - 8	1	30.00	30.00
Companion Care (3 hours)	3	43.00	129.00

CHECK THE SERVICE ADDRESS FIRST

If care will happen somewhere other than the member's address on file, select (change service address) before you choose a service. It applies to this referral only, and the address on file doesn't change. It can't be edited at checkout.

Review and submit

1. On the Referrals Summary, review each service's quantity and total points — use + or − to adjust if needed.
2. Confirm the Service Address. If it's wrong, use the back arrow to return to Add Referral and select (change service address).
3. Select Checkout, then Confirm. Checkout submits everything in the cart.
