# Finding Your Member

**Longevity · Case Manager Reference**

## Search by ID (primary method)

1. Type the member's ID into the search bar and press Enter.
2. Member IDs are 8 digits. Use the member's own ID when you have it.
3. Confirm you've opened the correct member before reviewing or creating a referral.

## Advanced Search (fallback)

1. If the ID doesn't return a result, select Advanced Search.
2. Search by First Name, Last Name, and Date of Birth.
3. Confirm the member record before continuing — the member shown in training is an example only.

## Reading the member landing page

| SECTION | WHAT IT SHOWS |
|---|---|
| Overview | Full name, address, date of birth, phone, preferred language |
| Recent Activity | Latest authorization, referral, and note updates |
| Benefits | The member's benefit tile. Select a tile to see its authorizations and referrals |

**THE LIFE ENRICHMENT TILE**

Life Enrichment products and Companion Care share one wallet: **$500 per quarter**, up to **$2,000** for the year, shown in Benefits Hub as 500.00 points. Select the tile to see the authorization and its referrals.

## Inside the Life Enrichment tile

Life Enrichment covers products such as hygiene items, adaptive apparel, cognitive and memory-support products, and engagement activities. Companion Care is ordered by the hour from the same wallet.

**OTC IS SEPARATE**

The OTC benefit is its own market-specific wallet. Members or their Responsible Parties order OTC items by phone at **833-288-1097** — it isn't part of the case manager workflow in Benefits Hub.

**NORMAL, NOT BROKEN**

A member with no referrals listed simply hasn't had one created yet. An empty list on its own isn't a problem. The wallet is use-it-or-lose-it each quarter, and unused points don't roll over.
