Signing In to Benefits Hub

Longevity · Case Manager Reference

Sign in

1. Go to longevitybenefits.thb.sh and bookmark it — you'll use it every day.
2. Enter the email address and password your account team sent you.
3. Select Sign In.
4. Check your email for a 6-digit verification code and enter it to finish signing in.

GOOD TO KNOW

Verification codes expire 10 minutes after they're sent. If yours expires, go back to the sign-in page and enter your credentials again — a new code is sent right away. No ticket needed.

Forgot your password?

Select **Forgot your password?** right on the sign-in page to start a reset. You don't need to contact support for this.

Need help signing in?

The sign-in page has a “Need Help? Please open a ticket with support” link that opens a support ticket for you directly — use it if you're locked out or your credentials aren't working.

REMEMBER

Use the same email and password every time. If your account team sends updated credentials, replace your saved ones — don't keep multiple sets on file.
